

Ramkhamhaeng University Declaration
on Honest Intention in the Administration of Ramkhamhaeng University

Ramkhamhaeng University (RU) would like to announce its honest intention to administer the university in accordance with the principles of good governance, in which its operational transparency can be thoroughly verified. RU is ready to take responsibility for obtaining the confidence of society through steadfastly resisting all forms of fraud, corruption, and graft. Its ineradicably deep-seated intention is to show that it shall be a “snow white” university sustainably evincing transparent virtue without fear or favor. To this end, the following steps shall be taken:

1. All steps in work permanence must be based on strict adherence to explicitly promulgated laws, rules, and provisions. RU also promotes the performance of work by RU personnel in accordance with these laws, rules, and provisions.
2. Awareness of the value of resisting fraud, corruption, and graft should be instilled in all those associated with RU. Personnel must learn to distinguish between private and public benefits in view of the urgent need for morally aware personnel to prevent corruption in work groups. They will be effective because of their strength of mind. This will be conducive to RU personnel becoming fully conscious of the deleterious effects and dangers of corruption not only at the university but also in the nation taken as a whole. This in turn should lead to a culture of resistance to corruption.
3. Be determined to construct and maintain a proper organizational culture. RU personnel must not accept corrupt behavior and must not tolerate dishonest actions leading to social penalties or social sanctions. This will ensure that they will be ashamed and afraid to commit corrupt and venal actions.
4. It is of paramount importance to foster a conscious awareness in RU students of the extremely deleterious effects of corruption and to teach them to resist all of the stark evils caused by fraud and venality.
5. Develop systems and mechanisms and promulgate announcements and practical guidelines for controlling, preventing, and suppressing corruption.
6. Adhere to organizational and professional codes of conduct.
7. Provide channels for receiving complaints and opinions. Explain and employ the information so obtained for the sake of organizational improvement and development.
8. Reveal pertinent information to the appropriate internal and external agencies to the end of having all concerned being thoroughly informed.

This announcement shall be effective from 20 March B.E. 2563 (2020) onwards.

Assistant Professor Dr. Boonchan Thongprayoon
Director of the Institute of International Studies
Acting President of Ramkhamhaeng University
